## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

Claims 1-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 9, it is not understood what “K” and “K+1”. The claim fails to provide any definition for “K”. This is also particularly confusing because line 4 recited “N delay cells”.

Claims 2-11 are rejected as including the indefiniteness discussed above with claim 1.

Claims 12-33 are rejected for similar reasons as claims 1-11.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Nagano et al. (USPN 6,130,565).

With respect to claims 1-11 and 23-33, Nagano et al. discloses, in Figs. 18 and 19, a circuit comprising: “a digital processing component (801-808)”; “an adjustable clock source (700 of Fig. 18) capable of supply a variable power supply level (OO1 and OO2)” having “N delay cells (40201 and 40202-40233)” and “a power supply adjusting circuit (202, 102, 304 and 4020)”, all connected and operating similarly as recited by Applicant.

With respect to claims 12-22, clearly the above circuit to Nagano et al will provide the recited method.
